

Residence, N. J.  
June 7, 1880.

Dr. J. W. Dawson,

Dear Sir, —

I thank you  
for your kind informa-  
tion, & also for the copy  
of your new Calendar  
that has reached me.

Some of the studies which  
you suggested in your  
letter, I have already  
studied; still, I am willing  
to take them up once more.

But: There is another  
thing about which I have  
to consult you. It is this:  
I have these two years  
supported myself by

lecturing on "Japan" —  
I was once a public student,  
& supported by the  
Government; but since  
my refusal to lecture  
when recalled I found  
it necessary to do this,  
in order to prosecute  
my studies. Now do  
you think I can do the  
same in Canada, & pro-  
cure means sufficient  
for the purpose? Or, is  
there some other way  
similar by which I  
can prosecute my  
studies? I am unwill-  
ing to ask you these questions,  
being as yet a stranger  
to you; I <sup>have</sup> however, no  
person to consult on  
this matter. If your

answer is to be negative,  
please keep all this to  
yourself. I remain

yours truly,  
W. Chymeri.

Oghini
