Aug 3 - 86

Dear Dr. Dawson

I should be happy to have you discuss the origin of species, the antiquity of man &c, in connection with the recent books upon the subject, and to have the article published in an early number of your journal, say in November.

The subject is one of interest  
to a large body of our  
readers, and I am gratified  
to find you willing to undertake  
the discussion

With the kindest regards

I remain

Yours truly,  
James M. Libbey

Libby
