

Wallace

Woster 0
Sept 4, 1880.

Principal Dawson.

Dear Sir.

We have received an application for the Ass. Professorship of Nat. Sci. in the University of Woster from Mr. Donald. We desire information in respect to the following points:

1. His ability to manage a class; how does he succeed in controlling ^{+ interesting} young men?
2. His skills in manipulation; does he give promise of becoming a successful & experimental lecturer?
3. His salary; how much does he now receive?

4. His hearing; does he hear self-
sufficiently in conducting reactions?

If you will be so kind
as to give as full informa-
tion as possible on the above
points, you will greatly oblige

Yours truly
David S. Wallace
