

12 Sep. I have
just seen Lynch
& hear from him
that he is the
21st
but this all the
same
Junker
Knowlton, 11 Sep.
So.

My dear Principal, I have at
last just concluded to hand over
my D. B. Term (to open on the
14th) to Judge Johnson, who is
kindly willing to take it for me.
The rub is, that for some time
I have been suffering from some-
thing of the sciatica kind, which
bothers me terribly at night, &
often gives me much discomfort
by day. I had feared that after
the term (if I took it) I might very
likely be quite unequal to a visit
to town for some little while. It
is now rather my intention to get in
this week; perhaps by about the
middle of the week; so as (with
a few chores) to be near D. Builley.

I have never heard when the
Reparate Corner Stone is to be laid.
As soon as you know, please let
me know; by telegraph, if need
be. I much wish to be in, on

the occasion.

I must confess to being rather behind hand as to Collep matters. My scheme is to bring in all my Collep papers with me, & try to give them all the bowa hire I can. The truth is, I have had a very poorly sort of summer. You & yours, I must, have done better. Mr D, too, have been more or less poorly.

Hoping you are all well, & with our best loving remembrances to all, believe me,

Yours most truly
Christie Dunbar.
