

Albanyville
15th Oct 1880

My Dear Sir/

I wrote my last
without inspecting my catalogue
and before the Eurypteros had
arrived = On inspection I have
come to the conclusion that the
set I offer is well worth the
money = But the Eurypteros is
not quite equal to what I thought
I have seen but one more
complete in all its parts =

What I propose now
is that if you buy the
collection I will ^{make} a present
of the Eurypteros

advising the large columns

i.e. I will furnish a set
of Corniferous without duplicates
and as good a set as I can
of Priskany sand for fifty
dollars = and donate the
Scriptures to the College.

Please let me hear
from you at once - as I
expect to leave home in
a short time and would
like to have them shipped
before I leave.

Truly yours

Edmund A. Sew.
