

624 LaGauchetière St  
Montreal, Nov. 8. 1880.  
Principal Dawson Esq.

Dear Sir:

I am greatly  
obliged to you for the paragraph  
in regard to Dr. Pebois.  
It makes the sketch complete.

You handed me your  
photograph some days  
ago, and the Company writes  
that they will make a steel  
plate, that your portrait  
may face the sketch,  
the engraving to be of no  
expense to you. You  
will have a proof of it  
for criticism, before

The impressions are struck  
off.

The Company want,  
your signature, on a  
slip of paper, to engrave  
under the portrait. I showed  
you the botanic Vol. and  
you will recollect that  
every man had his signa-  
ture underneath his  
portrait. Please send it  
in a day or two.

Please say nothing about  
the terms on which the  
plate is made. Be kind  
enough to keep them to your-  
self. Both of the parties, the  
Lace plates, want to own  
them themselves.

Very Respectfully  
Jesse Clement.
