

Monday
Barcelona, Jan 4th 10, 1881

My dear Dr. Dawson,

My wife and I have very unexpectedly taken a "journey into Spain"; in which until Saturday 8th instant we have had the very pleasant company of Judge and Mrs. Mackay. I have received your letter of 1st inst & see forwarded to me from London.

I am glad to learn that Dr. Marrice is about to add the much needed requirements of the Pres^{nt} College,

I have written to Warden King
accepting the trust under Miss
Scott's Will, under the only con-
dition that I should not be
required to give much
personal attention to the
duties - but I think King
and I may together perhaps
obviate some possible
troubles - Although the
last will differs somewhat
from that which preceded
it, I think it rather troubling
the case of McGill Coll. in 1841

much as ~~the~~ testator evidently
felt strongly in favour of
the Colley as she not only
confirmed but increased
her want previously
bequeathed -

No time to say more
without losing a week

Our kindest regards to
Mr D and family
and yourself

Your ever
affectionate
son
J. Dawson
