My dear Sir

Should I not be too late when
you send me some Stromatopora
will you oblige me with another bit
of Coyon rock with Chrysolite veins
similar to the last - I have your
figure of Archaeosphaerina - Have you not
noticed other organisms? If so where can I
see them, or will you send me a sketch -
I shall be glad of these as soon as possible - as I
am getting on with my work - What will the
Irish say? I have organisms in Commemora
noble! & no mistake in Coyon! Yours
Ed Moore
