

Leipzig 10/2 1881.
Carolinestr. 5

Dear Sir

Many thanks for your own notices and those regarding
Dr G. M. Dawson. Many thanks also for hint
you gave me about Dr B. F. Harrington, at whom
I have posted a pamphlet. As regards the late Sir
W. E. Logan I have ^{already} extracted notices from the
London Roy. Soc. Proc. Vol. 24.

Because you take interest in my work, I take
the liberty to make you know the Lists of
those authors in British America, to whom
I have sent a pamphlet:

Bailey, Loving W. — Frederiktown
Carmel, C. — Toronto
Chapman, E. J. — " "
Harrington, Dr B. F. — Montreal
Hunt, Thos. Henry — " "
Kingston, J. T. — Toronto
London, J. — " "
Lloyd, M. R. C. — Montreal

You would oblige me if you would tell me if I still
have omitted other authors being in Mathematics,
Natural Philosophy, Astronomy, Chemistry, Meteorology,
Geology (excluded Zoology, Botany and all other sciences
regarding organized nature) who are worthy to be
mentioned in my work. Would you then call me
their names and give me their addresses (as ~~well~~ dis-
tinctly written as possible, if you please).

Yours faithfully,
W. Feddersen.

Tederson
