

AMERICAN MUSEUM OF NATURAL HISTORY,

CENTRAL PARK, (77th St. & 8th Ave.)

NEW YORK, March 24th 1881.

Prof. J. W. Dawson

Dear Sir

I have received
a note from Mr B. H. Wright of
Rensselaer, N. Y. saying he has
one good specimen of Pleurostoma
which he will send to you, and
is just exchanging for another much
larger individual which he will
forward as soon as it reaches
him.

Please let me know if they
are suitable and if not there
is another correspondent of mine
at Ithaca who I think may
have some

Yours very truly
R. A. Whitfield.
