

April 21 - 1881

4, Pulleney Buildings,
Weymouth.

My Dear Sir

To day I dispatch a box to
your address containing

Coll of 60 species of Up. Miocene Fossils
of Touraine in exchange for the
recent shells

20 Cyan Top ² Boxes 30/-

Coll of Fossils³ from the Upper Cretaceous
of the Lebanon £10

I have rather exceeded your order in
the latter wh. says about £5 over &
above the value of the Exoon, but I
am just now in possession of a fine
collection from the above district and the
opportunity might not again offer.

On Monday I leave for

Perm and Siberia but if you
have occasion to write do so as
my son will open letters and forward
copies - I hope to be able to procure
a series of the Perm fossils at the
Kasan University

I am
My Dear Sir
Yours truly
Robert Damer

C. S. Lord Ennis killed sent me a
few copies of his Catalogue of
Fishes for distribution among
Professors - one of which I send

Gran Top Boxes

101 - 201
