

5 Cambridge Square

W.
May 19th 1881

My dear Sir

My Mother wishes me
to thank you for your letter
of April 21st which she received
some days ago - enclosing
some Illustrations for the Bio-
-graphy of my Uncle which
we think are very nicely done.
I find on referring to the letter
from my Uncle asking me to
take care of the photograph &

specimens of Eozoon, that he
said they were to illustrate
a paper of yours that was to be
read at the Geological Society -
he hoped when he wrote to be there
himself -

The photograph is not taken
from the piece of rock I have -
it is a very small piece -

I send the photograph by this
mail, but if useless there is
no need to return it -

With kind regards in which

my Mother joins

I remain

Yours sincerely

E. G. Stewart

Miss Stewart
