J.R.

I hope this sp. is in a condition fit to
be described and that ^{it} to ~~be~~ seen. —

One box was sent sent from
Campbelton by R. way. I may say
it only contained duplicates collected
from both sides of the river of the large
collection ~~one~~ previously sent. No ferns were
observed. — By agreement I met
young Mr Ferrier at Point Leres on the
16th Inst. but he left the same evening
for Montreal in compliance with Teleg-
ram ~~received~~ received — Having as I expected
found nothing but a few chips of the
Graptolites at the fort I thought it
as well ^{not} to spend time or money there for the
present. And therefore proceed to Montreal
the same evening. —

I have two months pension to get
Taxes & Water rates to pay, Coal for ~~the~~ for
winter &c to attend to before I leave
town —
