

I need not say
expresses every
purpose would be
disregard

The Rectory
Trulyshby Lane.
Feb. 2 - 1852

Sir

We have a series
of Literary Gatherings in
connection with our general
and special Parochial
work in the vicinity of a
New Church on the site of
the first Protestant house
of worship in the Eastern
Townships - We have a
most commodious and
comfortable Basement in
our as yet unfinished

Subarack Church Building -
which is but a few steps
from the B. B. Station of
the Branch from West
Lambert - Considering that
your presence and words
might have a very beneficial
effect upon a very important
portion of your University
Constituency I have been
bold enough to admit the
idea that you might be
induced to yield to our
earnest solicitation to appear
in this central spot of this
section and under the

agency (I will not say our-
-selves) of our Association give
us a Lecture on any subject
You may indicate - By
leaving the City by Vt. Central
Train on any day in the
morning for Stoubridge Station
You would be comfortable
conveyance arrive here to
dinner at about 1 P.M.

The Lecture would be at 7 P.M.

On the following morning the
Train for Montreal leaves, a
few steps from our door, at
6.10. arriving in town at
9. o'clock. We would

David M.

Value the favour ^{greatly} highly - and I think ^{by} secure
a cultivated and representative
audience from this entire
section of country - if the
weather did not forbid absolutely
we hope to have the Rev. Mr.
Wells about the 17th Inst.
and fearing the winds of
March would be gratified to
hear that you could come to us
on the week after or as soon
as convenient to yourself
Believe me - My dear Sir
With all respect and
Sincerely yours

Wm. Burrows Dawson
