My dear Dr. Dawson,

You may remember
a Mr. Puckham, Superin-
tendent of Protestant
Education in Manitoba,
who has paid us a
recent visit. He is
a clergyman of the
Ch. of England & in
a letter he lately
wrote ^{to me} he asked as
follows "Do you think
I should have any
chance of getting an

d.d. or D. C. d. from
McGill College or
Leicesterville? It would
be exceedingly valuable,
as you can imagine.
My Bishop will
know willingly say
what may be necessary
in my behalf, & so too
will do Bailey late
Warden of "Augustine's"
College, Canterbury.
Mr Burkhard is an
able man, doing a
good work and as
representing a certain
amount of educational
force, connected to
with

Protestant bodies, it strikes
me that such a
distinction would be
inapplicable. I write
to you first as an official
and a prominent member
of the larger and older
body, & I think such
a mark of approval
would help him more
in his important sphere
of work than any
similar distinction
from Seneca Falls.
Believe me, with kind
regards, sincerely,
R. W. Norman.
P.S. I am sorry that I
am unable to take any
part in the reception

of our American Scientific
friends in August. I
have D.V. for England
early in July, & shall not
be back till September.
