MUSEUM & OFFICE, SUSSEX ST OTTAWA.

Feb. 17th 1882

Principal Dawson
Montreal

My dear Sir,

I wrote you a short time ago asking if you would furnish me with any facts on the "Progress of Science in Canada during 1880 & 81" for Morgan's Ann. Dominion Reporter. I did not mean to trouble you for information in general but only for any points you might wish to have noted. If you can't send any such items I shall be glad to receive them. Most of the book is now in the printers hands - Very truly yours

Robert Bell.
