Dr. Dawson

Dear Sir -

Your favor
received a few days since.

Thanks for the trouble you
took in explaining the nature
of the fossil, and in answering
my questions.

As the footprints
are somewhat imperfect, I am
afraid that the best drawing
that I could make would
give you but a faint idea
of the specimen. As I suppose

It would be more satisfactory
to you to have the object-
before you, I will send you
the specimen by freight, expenses
I send to Warden Junction,
which is as far as they can
be prepaid. As I intend
collecting at Horton Bluff
again in the Spring I am
in hopes that I may find
another specimen of the same
kind. Will report to you
if I am successful in
finding the specimens you
mentioned.

The Rev. Mr. Remond
is still living in Herntford.
Though a friend of mine, I

I have seen little of him during
the winter; but I think he
is in his usual state of health.
He has failed somewhat - during
the last few years, but is still
able to preach occasionally.
I think he does not travel
very far from home now.

Please keep the specimen
I sent if it is of any value
to you. I am in hopes to find
others.

Can you kindly inform
me where I can obtain J. F.
Whitman's on "Land & Fresh Water
Shells of P. D."?

Very Respectfully

A. J. Ponds

I have the honor to acknowledge the receipt of your letter of the 14th inst. in relation to the above named estate of death. The law firm has failed to furnish you with a copy of the will & probate records as requested. I think it best not to send you any further information at present. Please refer to the specimen sent you of the will & probate records. You may be able to obtain a copy of the will & probate records if you wish. I am, Sir, very respectfully,
 Yours,
 D. J. P.
