

Pittston Pa. March 14th 1882

Prof. J. W. Dawson

Montreal Canada

D. Sir

Wishing to get the fossil plants of Canada, either in exchange or for a money consideration, I take the liberty to enquire of you for information on the subject. I would like to get as complete a collection as possible of not only the plants but the accompanying animal remains.

Any advice that will assist will be thankfully received.

Very Respectfully Yours
R. D. Saco
