Dear Sir,

Your telegram is just at hand. Mr. Howell has, we believe, written you (from San Francisco) that he will go on to mount the casts. We are now expecting him every day, and it is his intention to go on to Montreal immediately.

Very truly yours,

Dear Sir,

Your telegram is just at hand. Mr. Huxley has no belief, written from San Francisco, that he will ever go to mount the eagle. He is now expecting to sail on the 1st, and it is his intention to go on the 15th. I will be immediately.
