

Hawkesbury May 30th/82

Dear Sir:-

If not too much trouble, could you send me the names of a few of the fossils I would be likely to find on the mountain at Calumet? I would like to get the names so that I may be able to fix them in my mind and thus make a little practical work more interesting.

Hoping it will not oc-
-cupy much of the time so precious
to you I remain

Your obt^d serv^t
