June 5 82

My dear Principal

I have to thank you
for the abstract of Prof. Illacomi's
your son's & your own papers
which I have transmitted
with others to the Editor of
Nature. I had to be satisfied
with a mere mention of
Dr. Selwyn's paper having no
data for an abstract.

I am deeply indebted to
you for your kind invitation
I am afraid now however that
I may not be in Montreal

I have just got word from
Halifax of the founding of a
new chain in the Collyer and
I may perhaps have to
return to arrange about
changes in the Calendar.

In this uncertainty it is
better that I sh^d follow my
baggage which is at the Weston
Hotel. I shall of course have
call.

With kindest regards

Yours truly
J. Macgregor
