Dear Doctor Lawson —

Several have asked me when the Prologue containing the Constitution — Rules & list of members & officers would appear — which you are mentioned on the cars on our way down —

I think it would be desirable not to delay this publication —

The Press is busy disputing us with the read — The British association had to stand & survive several years of more attacks —

He is also — for a long time a candidate — but set aside, for an account of his not having written a

a book, is particularly fine,
especially against ^{me} — if you know
right well that if he failed
to come in — it was not
owing to me —

Lord Lovel called on me —
he thinks matters are looking
well — I had to day
often distinguished visitors:

Baron & Baronesse de Longueuil.

I enclose a copy of the
list of my french works
such as I furnished

M. Lette — our Section

Secretary —

My best regards to Mrs
& Miss Dawson —

Yours truly
in haste

Dr Dawson
