

Macell

9th July 1882

Dear sir,

I have yours of yesterday. The clerk in charge of the grazing, mining & timber lands is one of the most thorough men of business I have met during my half century of public service. He, of course, supposed your son had given you a power of attorney to act and sign for him and therefore sent you

the lease to save the delay
of three weeks. If you have
not a power of attorney you
must send the lease to your
son.

Yours sincerely

A. Russell
