

Hemel

Sherbrooke 18<sup>th</sup> July 1802.

My dear Dr. Dawson

I am sorry to find  
that you have been unwell.  
but hope a little relaxation  
will prove serviceable. I  
myself have been so much  
engaged since my return from  
England that I have only had  
time to attend to the pressing  
business. so that our Education  
matter (Council of P. Instruction)  
have remained in statu quo.  
I leave for the White Mountains  
on Thursday & be absent until  
Saturday week. Then I will  
look up the whole matter &  
perhaps find a day to consult

with me. after I have refreshed  
my memory. If Dr. Church  
cannot join us this time. we must  
ourselves do something. but  
it seems pretty hard that the  
whole burden should fall  
on you & me. I should have  
thought Lynch might have  
helped in this matter and  
some others less occupied than  
we are.

Yours very truly  
P. M. Hecker
