

12  
The Granar House  
Christchurch, July 20, 1882

My dear Dr Lawson,

I intend leaving  
Liverpool next week in the  
"Circassian", and now at the  
last moment almost, decide  
to go to Mr Drummond's house  
instead of the Windsor.

I

I am having made for  
the Museum some door  
plates and furnishings which I  
hope will be ready for me to  
take with me.

I am very glad to learn from  
your last that you are so  
well advanced. You must  
have worked hard I wish  
my carpenters who still  
afflict me would get

through their work as promptly.

I thought it probable that the building would be fairly filled but I hope soon will be found for all that will come to it during your life time and mine. The next generation must look after itself.

Yours very truly  
Peter Redpath

Principal Dawson Esq

Montreal.
