GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn LL.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

Aug. 28th 1882

My dear Sir,

I trust the Excursion party met with no further mishaps after leaving Ottawa on Saturday. Our local committee here regret the miscalculation as regards the time of the arrival of the visitors. Their arrangements were made to suit the following telegram from Prof. Boney - Montreal Aug. 21/82

R. Surtis, C. E.

We leave Mill End not later than 8 am. on Saturday morning stop about 30 minutes at Culmets

and reach Ottawa about one.
Will telegraph the probable number
later

Henry J. Bowyer -

So far the meetings have been
most satisfactory. I hope they
will continue so till the close.
I shall not return to Montreal
again, as I find an accumu-
lation of work to be attended
to,

Very sincerely yours

J. Horburn
