

Chas
McLellan

July 20/83

Dear Sir,

I shall take
my assistant away from
other work and shall
endeavour to prepare as
good a collection as we
can of Canadian Mollusks.
I shall be glad to be
informed as to the
time when the specimens
will be required, and
to whom they should

be forwarded.

I think our best
way will be to place
the smaller shells in
slap-topped boxes, which
will keep them safe
and allow them to
be exhibited at once
without any preliminary
mounting. Truly yours

W. D. Owen

Hon. Mr. McSweeney
er

Stipulate that of the
which should be placed
in some public institution
either in Boston or
this country where
of service for use

W.D.
