My dear Municipal

An alarming rumour
has just reached us!

In writing some friends
to augment our party

on Tuesday next (Nov 13)

They replied that they
had been invited to

meet you elsewhere on

the same day - I

think that we have always
spoken - both at Dr Carpenter's
and last night of next
Tuesday - and acting on
that belief we have for
some friends to meet you -

It is of course possible that
either our friends have mis-
read their note, or that
their inviter has made
a mistake, but at any
rate I thought you will
find this note in order that

he may not be to the purpose
of the play of Hamlet with
Hamlet left out

Very sincerely yours

J G Bonney
