My dear Principal Dawson

It was a surprise to  
me to hear from you from a  
London address today, and I  
hope I shall see you there  
either before you leave or after  
your return. I missed  
seeing you at Ottawa, he

not having yet returned from  
his last tour, the results of  
which are sure to have been  
most interesting.

I found Mr. Ferris at  
Montreal full of the importance  
of having a new fence at  
the fall - I looked again  
at the old

are, I think it of  
very good aspect, congratulating  
the University that the  
small renovation suggested  
by you in this respect  
seemed all that need be  
done to fit it for the  
inspection of the critical  
eyes

of the British Antiquary next year!

We are here until  
until Monday when we  
return to town.

Believe me

Yours  
W. Lott
