

5 Berkeley Place

Cheltenham

Nov. 20th

My dear Doctor Dausser,

My friend W. B. Lucy
Esq J. P. F. G. S., who resides
near the place where a
portion of the Bohémic Coral
Reef is exposed, has kindly
undertaken to get you some
samples. In a previous
letter of yours, I believe
you gave me directions

as to where the specimens
were to be sent. However,
I am unable to lay my
hands upon it and am
therefore obliged to trouble
you again.

Dr Wright is much worse
than when you were here
but still his vitality
supports him, and it is
impossible to say how
long he may continue in
his present state. It is

very depressing to see him
such a wreck of his
old self.

with very kind regards.

Believe me

Yours very truly

Edward Weather
