

Hunt

Montreal Jan. 18. 84

Dear Mr. Dawson

I write a few lines
to tell you that our Committees are now
all arranged. We have an Executive
made of the Chairmen & Secretaries of the
various Special Committees, the original
citizens' committee included, also
the Bul. Assoc. Local Executive. Of all
these, Hugh Mc Lennan is Chairman, & I
am vice-Chairman. My Committee of
Invitation is changed into a Committee
of Reception. A partial list of the various
Special Committees was unwisely printed
in the Layette the other day by Mr. White

Should you see it please remember
that many other ^{names have been added} members are ~~up with~~
~~names removed here~~, and expect that soon
a complete list of the organization will
be sent you. The Conveyance Com-
mittee have only this week been able
to complete their report, which will
be at once put in print & sent off to
London. Mr White is now deposed
from his headship, inasmuch as the
functions of the Citizens Committee
are in abeyance till the meeting of
the B.A.A.S. is over.

Please for ^(2nd) Boston on Monday ^{till March 1-} to
be absent six weeks from my course
of Lowell Lectures on "Mineral Phys."

ology. Run number. I have just got out
the last pages of the volume of the R.S.C. 3;
the preface. The plates of Waane's paper
are not yet finished printing. When these
are done the book will be bound & sent
out. but I hardly hope for this before
March 1 - It will make 700 pp. by
two papers. - on Serpentines. & Tacoma
Systems. of pp 52 + 55. are ready &
I have sent them off by mail. This
week. I will send you copies & Liverpool
I will mail you in the Spring. so that you
may read them on your homeward
voyage if you choose. If you visit
the Deer Deer I wish you would
try to get specimens of the recent mag.

which I subscribe to be deposits from
Nepherent Lake when I was high
They abated toward its southern spher-
mity & New analysis will be of great
interest to the chemist. Are they mag-
nesium & are they carbonates or sil-
icates?

Mr. Hunt is in a sad state this winter,
and scarcely ever leaves his house.

Herbody and her mind are alike inflexible
and her estate are unwell give me great
anxiety. especially as I am to be absent
for six weeks. I heard from Mrs. Willen
news up to the eve of your sailing from Naples
with the best wishes and regards to your
family I am Dear Dr. Dawson
Very sincerely Yours
J. Stearns Hunt
