Director of the U. S.
Geological Survey.

DEPARTMENT OF THE INTERIOR

United States Geological Survey

Washington, D. C., Dec. 31st, 1884

Prof. Sir. Wm Dawson,
McGill University
Montreal, Can.
My Dear Sir;

I have packed up and
sent to you this day, by express,
specimens of the Stromatopora-
like forms from the Potsdam
limestone, Saratoga Co. N. Y.
and also specimens from the
Lower Cambria of the Grand
Cañon of the Colorado, Arizona.

Use the material as you
may see fit and let me know
the result of your investigations,
that I may incorporate it

Wm. D. W.
