Lumber Merchant,

PETER STREET,

Pembroke, Ont.,

Feb'y 9<sup>th</sup> 1885.

To the Principals McGill College  
Montreal

Dear Sir,

I sent my son H. W. Dickson to Montreal to attend College for a course in Medicine. He was in Montreal for the term before holidays was home at holidays and returned to Montreal on the 5<sup>th</sup> Jan'y to go on with his studies he told me when at home that he was getting on well with his studies and I felt satisfied that he was, but about a week ago he left his boarding house in Montreal and I have not heard of his whereabouts since, and I also understand he left College. Now Sir I have my doubts as to his proper attention to his studies as I feel that he would not all at once adopt this course. if he had been a good and faithful student since he went down last October. Will you be kind enough to give me in full

his line of conduct, since he went down  
in October if he was attentive to his studies  
and if he was at his place, in the  
college daily, the reason I want to  
get this information is that I can better  
judge, if he has had this action in view  
for some time, and my future course  
I may adopt for him, I will be in  
a better position, how to manage him  
as there is a great deal of anxiety in  
a young man at his time of life,  
to his Parents, I had confidence in him  
and did not probably look after him  
as carefully as I should, you will  
please give me any information you  
think I should have that you are posses-  
-sed of that may tend to his benefit

I remain

Yours respectfully

James B. Dickson
