Dear Sir

This afternoon I was much gratified by the receipt of the parcel from you by the hands of Mr E. J. Sudon who only reached Liverpool yesterday after a delightful voyage in the Aerona. I feel greatly indebted to you for the exceedingly beautiful specimens of the Eozoon Canadense which you have been so kind as to send me.

They illustrate perfectly some good cuts in Dr Page's Introductory Geology and will I am sure prove a source of interest to scientific friends here.

I shall not fail to carry out your suggestion in the letter previously received to get some sections made, or make them, for microscopic examination.

I am, Dear Sir
Very faithfully Yours
J. Penn Clark
