

Kensington Palace.

Love

June. 12. 1885.

My dear Sir William

---

We shall  
all look forward with  
the greatest pleasure to  
the prospect of seeing  
you again in England  
in September - and

of the Presidency of the

British Association

will have the best

effect.

The meeting  
of the Canadian Society

seems to have entirely  
pleased the least critical  
and to have been satisfactory  
to the most exacting. I

hope his L. Tolley will  
not drop the point.

He has got his  
money here easily

enough

There being so much lying  
dormant waiting for  
investment.

Alberta seems to be full of  
curiosities, & the next meeting  
of the B.S. if it takes place  
at Toronto shall have more  
time for its genuine geologists  
to travel West.

Believe me, with very many  
thanks, dear Sir William  
Yours very truly  
Lothe
