

Minneapolis 30 Sept 1885

My dear Sir

I had a letter today
from Winnipeg. Dr Rawkin
Dawson's pictures etc were
left in charge of Mr John
H. Caldwell the druggist there
He is forwarding them to
you by Canadian Pacific
Railway, I trust they will
reach you in good condition.

My advice is that the
crops there are good after all
and that the injury from frost
is not so great as at first feared

I am thinking of sending
another article to Macmillan
magazine to see if I shall have
better success this time. The
subject will be, if I get it completed,
"Western life in its social ~~phases~~
and economic phases."

yours faithfully

H. W. Maafie

Dr Wm Dawson
