

Pictou 17th Oct 65

My dear Sir William

The party who purchased the lot of land at Salmon River paid the balance due only today altho I had written to him several times to pay up. I enclose accounts showing but at your credit in Don.^d Savings Bank here \$64. and 35¢ in my own hands. As I have not been in business for several years I always put any funds I may hold for my friends in the Don^d S. Bank as a convenient mode of deposit. I regret the delay which has occurred since rec^d. of yours of 11th Ult. but I could not get the purchaser to close the payment sooner. I trust you are all well. You will be sorry to hear that our old friend Dr. Mcgregor is hopelessly ill. He has recently returned from Britain where he had gone chiefly for medical advice and with the above result. He is able to go about and was at Glasgow this week but I am told he looks very miserable. I took the liberty of giving young George Campbell of Inver a letter of introduction to you a few weeks ago. He intends going to Macgill for medical study. He is a well intentioned lad and I trust he will walk in his own way. With all good wishes to yours very truly
Wm. Primrose

I mean not can be drawn such sums and at such times as you wish I will be glad to serve you, at any time here
