

British American Land Company

R. W. Heneker,

Commissioner.

Sherbrooke, Que. 21st Oct. 1885

My dear Sir William

I have been requested to ask
you to give our Sherbrooke people the
pleasure of hearing your lecture during
the course of the winter on some subject
which may interest as well as amuse
We are doing a great deal to cultivate
a scientific taste, and have formed
the nucleus of a Museum - which tho'
small in its beginning may yet have
good results. If I may suggest a
subject - it would be on the Natural
History of Canada - with the object of
creating an increased interest in all
that surrounds our homes and daily
life. I feel that we can count on you
and I need scarcely say that my
house must be your hotel on the occasion.
Very truly yours

Sir Wm Dawson
Montreal

R. W. Heneker
