

Leamont

120 Mackay St.  
Monday  
Nov. 9 1885.

Sir Mr. Dawson.

Dear Sir

I have in my possession  
a set of Diagrams printed on  
cloth & coloured for use at  
night. they are 4 feet long  
by 3 ft wide & are "Egypt &  
the Bible" they were published  
by the Workingmen's Educational  
Union of London. - Noticing  
that you were abt to deliver  
two lectures on Egypt, which  
I propose to attend, and

having frequently listened to your  
interesting addresses on  
similar subjects, it occurred  
to me that the Diagrams might  
be useful to you in the coming  
Lectures, if they can be of  
service as illustrations you  
are welcome to the use of  
them; you doubtless know  
the character of the publications  
referred to & possibly may  
have them, if not, I should you  
desire to see them will you be  
good enough to drop me a  
line, & I shall have much  
pleasure in calling at  
your residence & showing  
the diagrams; if convenient,

My other 8 weeks long term  
Tuesday Term - Wednesday Term &  
have engagements -

Yours respect fully.

J. J. Garrison
