

Prof Hull

GEOLOGICAL SURVEY OF IRELAND,

Office, 14 Hume Street, Dublin,

17 March 1886

My Dear Sir W. Dawson

I requested Mr. Besant
to forward you a ^{presentation} copy of the Geol.
Memoir on Arabia Petraea & Pal-
estine, which has only just made
its appearance - This I doubt not
has been done - but it is possible
it may have been amongst the
baggage of the ill-fated Oregon

in such case it will never
reach your hands - Consequently
should you not have received
your copy ere this - if you
will kindly let me know I
will request - that another be
printed in its stead -

You will see Le Conte's
critique of my paper on the
Age of the - Atlantic Ocean
in the Geol. Magazine for this

month. I have sent - a
reply - which I hope will
appear in the April number.

Le Conte has overlooked or
misunderstood some of my
strongest points -

I believe Selwyn is in England
and hope he will pay me
a visit - later on - and see a little
of the north of Ireland. Perhaps
you may also be able to

Come to Ireland before or
after the Association meeting.

Very truly yours

Edward Hall
