

  
Forney - Cornwall.

August 20. '58.

My dear Mr John,

I am glad indeed that after 15 years constant endeavor, we have carried the Corn Law Clause, which had been blocked by wholly irrelevant issues through political eye-fatters.

The matter is now  
to be thought arranged.

The details will come  
into operation next year.

Meanwhile they will  
be prepared.

I have been acting,  
and shall to late rest.

But I am earnestly desired

not to leave the Medical  
Committee this important  
matter was settled.

It is a source of  
great regret to me that  
just as the state of my  
(and perhaps of work)  
health hindered my going  
to Canada last year, so  
this year I cannot

will return home from  
my enforced rest for the  
British Association, in  
order to pay my respects  
to you. I am  
not yet sure however  
that I shall not  
disturb my doctor's friends  
and offend one day. If  
there were a chance

That you would come to  
by rail after the Association  
for a night is great,  
I would most fully  
welcome you to come here.

I pray you do me this  
kindness if you can.

It would be a real  
pleasure to me to

come and see you both.

Please write me a

line to say you will

to <sup>u</sup> Oxford - to be forwarded?

It might not be without  
use for this Medical

affair that we should

have some conversation.

I hope to go to  
America & Cascadia  
next year

Very respectfully

Wm. H. Wood
