Dear Sir William Dawson

Herewith I beg to return

to you the unique specimen

wh. you kindly confided

to my care for examination by

Henry Woodward & myself -

we still think the it
is

is referable only to the
Ceraticaris group - as
I proposed in our paper
in the Col. Magazine 1854 -
we hope the other specimens
may turn up someday -
If so we shall be very
much pleased to be
favoured by being allowed

To see them

I trust that you will
have found your visit
to England - to Birmingham
& particular highly pleasant
in every way. Thanks
you, as others must London,
for your wonderful good
successful address, & acknowledg

Your kind Courtesy to
myself in many occasions

I remain

Dear Mr Wilkin

Yours very truly and

Obliged

Wm. P. Jones

To Mr William Dewson, Esq

he is an
President Post Office

Wm
