

Wm Edwards

The Parsonage,
Westbury on Trym,
Bristol.

Sept. 7. 1886

Dear Sir.

I regret that I am
not a member of the B. A. S.
as then I sh^d have heard
your magnificent address
to the Society - which now
I have only read. But I
have read it with the
utmost admiration and
delight.

It is also a matter
of regret to me that you

Should be in England, &
yet that I shall have
no opportunity of seeing
you. I suppose you will
not be coming to Bristol?
I start next week for
a short Continental holiday,
including the Trentalint
Congress at Vienna.

It is unfortunately
my base & sordid duty
as Hon. Secy of the E. S. F.

I remind you that yr
Dues for 1885. 8 has not
been paid, & that the
Season 1886-7 has begun.
Our publication for 1885-6
is issued, & will require
no payment for that year.
It is a magnificent book,
with 44 plates. I thought
you might like to have
it at once, & to take it
home with you. For 1886-7
we have in preparation

a most interesting volume
on "Goshu" by Mr. Naville,
containing all his latest
researches & explorations
in that district.

By the way, our ^{London}
"Academy" will I hope contain
a little review of y^r. charming
"Egypt & Syria". It ought
to have appeared long since;
but at all events it could
not be more apropos than
now. Believe me to be

Yours very sincerely
Amelia B. Edwards.
