Sept 30 /86

Dear Sir William

Your favour of
28th inst with Enclosure is
duz at hand and I beg to
thank you for the most inter-
esting "Article", and also for
your expressions of regard
and sympathy for my illness.

It is now almost three months
since I was prostrated by the
inflammatory Rheumatism and
to day was the first time I
have visited my works at Longueuil

some the attacks —

The new discoveries mentioned
are really wonderful and
it is surprising that more
persons do not take suffi-
cient interest to subscribe
the small sum which would
enable them to receive the works
of the E. C. Fund —

Miss Edwards paper in the
Sept. Harper is very ably written
and it is well illustrated and
this will be of great benefit to
the Society. There is also another
article in the London Illustrated
News also very attractively
illustrated —

I have our a great many Circulars
And reports to prominent persons through
the Court requesting Contributions to be
sent to the Treasurer. As I am and Mrs
Abel I wish take the matter in hand again
And get up and send our friends Circulars
And also get into articles inserted in Canadian
News Papers. I wish to Congratulate you upon
your safe return, and also for the successful
meeting of the Association and which

You had the honor to preside
I was with great pride that
Canadians read of the
able and acceptable manner
in which you performed
the duties of that office.

May I keep the paper but
a short time or do you
require it at once?

Sincerely yours

Hubert R. Ho
