

Tupper

Dec 1886

At Fredericton N.B.

9th October 1886

My dear Sir William,

I duly received your
letter of September 24th,
and conferred with Sir
John A. Macdonald on the
subject.

I quite agree with
you as to the importance
of having a proper
scientific

scientific delegation
from Canada to the
Exhibition in Sydney.

Sir John has assured
me that he would
give the subject careful
consideration and
would communicate
with you

With regards to your
family, I remain

Yours faithfully
Charles Tupper
