Dear Sir Wm. Dawson

I have only to-day received your favour of 27th September enclosing copy of your son's testimonials and referring to his present application for the position of City Engineer.

Your letter being directed to Messrs. Kerr & Bull went to Mr. George Kerr who on reading it supposed it was intended for his brother, who came out on the "Parisian" referred to in your letter, and he in turn has just forwarded your note to me.

I believe no appointment has yet been made and I shall be very glad to do any thing in my power to forward your son's interest. The Mayor is out of Town at present, on his return I will try to see him, and in the mean time I will make it a point of speaking to some of the most influential of the Alderman, with whom any word from me would receive consideration.

I was sorry that I was obliged to leave England before the meeting of the British Association, but I read your address and some of the proceedings with much interest, and I may perhaps be permitted to offer you my congratulations upon the reception accorded to you as well as upon the success of the meeting under your presidency. With kind regards believe me to remain

Yours very faithfully.

*As you see the type written
I will write above to accompany
to you in the other letter.*
