

M. Gill College.  
Montreal.

Oct 18, 1886

Dear Dr. Turnbull,

The request in  
your favour of the 11th is  
a tempting one, as I hope  
to give some attention this  
winter to the subject you  
mention. I have used  
the title "Facts and Con-  
siderations bearing on the  
~~the~~ origin and conditions  
of Primitive Man" some  
time since. I have  
done new prints on that

Subject which might be  
of interest.

If so, it might  
perhaps be useful in the  
mean time to reprint  
the principal paragraphs of  
my paper in the April  
No. of the Reporter  
on Recent Discoveries of  
the First Chapter of  
Genesis. I would then  
refer to this and so  
on to the Question of

Primitive man,

If you think  
well of this and will  
send me a postal  
card to that effect  
I shall send you a  
series and oblige  
Clyde of the artist
