Sir. J. Wm Dawson

My dear Sir

Will you please accept the thanks of the Directors of the Brooklyn Institute for the copies of your "Origin of the World" "Story of the Earth & Man" and also for the six copies of your "Points of Contact" which you have so kindly sent.

There have been quite a number of applications for these books at the Library and they are now in circulation - supplying the demand

The two first named books arrived on Saturday and the "Points of Contact" in yesterdays mail

I trust you will excuse me for not responding more promptly

Yours Very Truly
