Dear Sir William -

You need have  
no fear that your  
son's application at  
Toronto will affect  
his position with us.  
I have not for  
a moment forgotten  
my promise to do  
better for him as  
soon as possible  
but we have had  
so many Engineers,  
longer in the service  
of the company, to

an opportunity ~~that~~ offers in any  
other direction. It will be most  
happy to help him in any way  
to take advantage of it.

Sincerely,  
W.C. Bowman

part of the other  
Engineers of the same

be able to do it  
soon by giving  
him some special  
duties. Mention
