

J. W. SPENGER, A.M., Ph.D., F.G.S.  
Professor of Geology, DIRECTOR.

THE MUSEUM OF  
The Missouri State University.

Columbia, Missouri, U. S. A., March 21

My Dear Sir.

Allow me to thank  
you for the papers. In Science  
for March 18<sup>th</sup> you will  
see some notes on glacial  
erosion in Norway, being  
a very brief resumé of a  
paper that will be published.

But on next to last line of first  
column, "being pushed" in place  
of "pushing it" should have  
been printed. There not

yet any extra copies. I

wish you could go to

Norway. I want to return  
again but see no prospect.

I am  
Yours sincerely  
J. W. Spenger

Prof. New  
Missy

J. W. SPRINGER, A.M., Ph.D., F.G.S.  
Professor of Geology, DIRECTOR

Columbia Missouri U.S.A. March 21

My Dear Sir,

Allow me to thank you for the paper. It seems for March 18th you will see some notes on fossils in Missouri, being a very brief account of a paper that will be published. It has not yet been printed in the "Geological Survey" of Missouri. It has been printed. It has not yet been printed. I must you could go to Missouri. I would like to see it before we meet.

I am yours sincerely  
J. W. Springer
